

# Navin Hariharan

With a unique passion for technology that drives me, I have accumulated more than 8 years of experience in the **cybersecurity** domain. In addition to this, I have also accrued 2 years of knowledge in a relatively newer field such as **Artificial Intelligence**. I head the top managerial level with all executive powers and responsibilities as the CEO of **CyberHakz Pvt. Ltd.** and Director of **Alfa Global Wealth Advisors Pvt. Ltd.** I have learned many tools and programming languages such as **Python, SQL, Stable Diffusion, FLUX, OLLAMA** and much more. As a fun fact, I happen to love coding, listening to music and also enjoy driving in stressful situations
